

elite Platinum

90-10 with 70% surfactant load

- Superior surfactant and emulsifier blend is recommended for all non-crop, aquatic and crop applications.
- Significantly improves permeation of the active ingredient through waxy and hard-to-wet surfaces.
- Meets the standards of all active ingredients when the label specifies surfactant load for improved efficacy.
- Fast and complete spreading and wetting.
- Contains a defoamer for precision mixing and application.
- Easier to store, transport and mix.

Tech Matrix

Functioning Agents	100%
Surfactant Load	70%
Aquatics	✓
Contains Antifoam	✓

APPLICATION RATES

Application	Recommended Rate	Low Rate	High Rate
	Pints per 100 gallons of spray mix (% of tank mix by volume)		
Ground, Aerial, CDA	(0.25)	(0.125%)	(0.5)
Aquatic	(0.25)	(0.125%)	(0.5)

Use the low rate where weeds are young and higher rates when the target is waxy or weather-hardened.

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Though phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.
