

# Specimen Label

**PRINCIPAL FUNCTIONING AGENTS:**

Anionic Surfactants, Ammonia and Sequestering Agents ..... 100%

## KEEP OUT OF REACH OF CHILDREN DANGER

Causes severe skin burns and eye damage. Read label before use. Keep container tightly closed. Keep only in original container. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Immediately call a POISON CENTER or doctor/physician. Store locked up. Dispose of contents in container to an approved waste disposal facility in accordance with all local /regional/national/international regulations.

**FIRST AID****Call a poison control center or doctor immediately for treatment advice.**

Have the product container with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment. If eye irritation persists: Get medical advice or attention.

**IF ON SKIN (hair) OR CLOTHING:** Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. Take off contaminated clothing and wash it before reuse. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice.

**IF SWALLOWED:** Immediately call a POISON CENTER or doctor/physician. Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Do NOT induce vomiting.

**IF INHALED:** If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

**GENERAL INFORMATION**

**VIGOR** is a powerful, superior grade spray tank cleaner that penetrates and solubilizes pesticide residues.

**VIGOR** is tolerant to hard water, which causes spray tanks to accumulate high levels of residue.

**VIGOR** is soluble and compatible with most spray tank materials. **VIGOR** neutralizes acid residues of pesticides, preparing the spray tank for the use of other products. Solubilization of residue spray materials will help to prevent damage from occurring to non-target plants.

**DIRECTIONS FOR USE**

**Large Volume Sprayers:** **VIGOR** is effective at dilution rates up to 1:400. One quart of **VIGOR** will treat up to 100 gallons of water. Adjust the dilution rate as needed for individual conditions. Each cleaning situation will vary and adjustments will be necessary. Be certain to circulate **VIGOR** treated solution, through the spray system for 10-15 minutes. Use a high-pressure sprayer or hose, to rinse all interior areas and spray tank walls. Purge hoses, spray lines, and nozzles for at least 1 minute with the cleaning solution. After cleaning, drain and flush entire system, including nozzles with clean water and rinse all tank and spray areas.

**Hand-Held and Back-Pack Sprayers:** Use approximately one ounce of **VIGOR** per gallon of water, agitate thoroughly, drain and follow with clean water rinse.

**SPECIAL PRECAUTIONS / RINSATE TESTING:** The use of **VIGOR** or other tank cleaners does not guarantee removal and/or neutralization of all residues. Some pesticides, such as 2,4-D and dicamba, may leave persistent or hard-to-remove residues. Many variables exist, which make consistent tank cleaning difficult (i.e., water quality, use of cleaning equipment, quantity and type of residue, age and condition of spray tank, spray lines, nozzles etc.). In order to ensure, that all residues have been removed, apply a sample of the rinse water to sensitive plants (tomato, cotton, ornamentals, etc.) and after sufficient time, observe for wilting or severe stress. If stress occurs, repeat cleaning process and retest as above.

**STORAGE, HANDLING AND DISPOSAL**

**HANDLING:** Keep out of reach of children. Read label before use. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Do not breathe dust/fume/gas/mist/vapors/spray. Wear protective gloves/protective clothing/eye protection/face protection.

**STORAGE:** Do not store near strong oxidizing materials, acids, and chlorine. Store locked up. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

**DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org).

**WARRANTY**

Red River warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to the label instruction, or any abnormal conditions, or under conditions not reasonably foreseeable to Red River, and buyer assumes the risk of any such use.
