

PRODUCT NAME Product Code: Date of issue:

RED RIVER 25-5-20 BERMUDAGRASS

NL.2250520RRS)_114_01.2_US September 2019

PRODUCT AND COMPANY IE	ENTIFICATION
Product identifier	Red River 25-5-20 Bermudagrass
Recommended uses:	
Fertilizer end-use, preparatio	n of fertilizers mixtures.
Dry fertilizer for mixing with	water for foliar and soil applications.
Restrictions on uses:	
None	
Manufacturer	SQM North America
	2727 Paces Ferry Rd, Building Two, Suite 1425
	Atlanta, GA 30339
Company Telephone/Fax	(770) 916 9400 / (770) 916 9404
Emergency Telephone Numb	er (800) 424 9300 (CHEMTREC)
HAZARDS IDENTIFICATION	
Classification of the mixture	
Classification of the chemical	in accordance with 29CFR §1910.1200
Not classified a	is hazardous.
Label elements	
Hazard pictograms	None applicable
Signal word	None applicable
Hazard Statements	None applicable
Precautionary Statements	None applicable
Other hazards	
None	
COMPOSITION/INFORMATIO	ON ON INGREDIENTS
This product is to be conside	ed as a mixture/preparation
	CAS No EC No Concentration

No substance meeting the classification criteria for health is present over its cut-off value in accordance with OSHA, 29CFR §1910.1200/2012.

Contains some or all of the following: phosphate salts, sulfate salts, potassium salts, secondary nutrients and micronutrients.

FIRST AID MEASURES 4. **Description of first aid measures General information** In case of persisting adverse effects consult a physician. Never give anything by mouth to an unconscious person or a person with cramps. In case of inhalation Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention for any breathing difficulty. In case of skin contact Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. In case of eye contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of ingestion Rinse mouth and drink plenty of water. Call a POISON CENTER or doctor/physician if you feel unwell. Most important symptoms and effects, both acute and delayed The following symptoms may occur: In case of inhalation Irritation to respiratory tract Delayed lung effects after short term exposure to thermal degradation products

RED RIVER 25-5-20 BERMUDAGRASS

Product Code: Date of issue:

PRODUCT NAME

			_
In case of skin contact	May cause redness or irritation		
In case of eye contact	May cause redness or irritation		
In case of ingestion	Ingestion of large amounts may cause:	gastrointestinal disturbances	
Indication of any immedia	ate medical attention and special treatment i	needed	
Treat symptomatically.			

5. FIRE FIGHTING MEASURES

Extinguishing media

Suitable extinguishing media: Unsuitable material: Use any suitable mean for extinguishing surrounding fire.

None, but attention should be paid to compatibility with chemicals surrounding.

Specific hazards arising from the chemical

Thermal decomposition can lead to the escape of toxic/corrosive gases and vapours.

Thermal decomposition products: Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

Protective equipment and precautions for firefighters

Wear self-contained breathing apparatus and a chemical protective clothing.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Provide adequate ventilation. Wear personal protection equipment (Section 8).

Environmental precautions

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal or recovery.

Unsuitable material for containment/taking up: None specified

Other information

None

7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment, when required. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Keep away from flammable, combustible, strong acids, and reducing substances.

Conditions for safe storage, including any incompatibilities

Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed.Do not store together with:Flammable substance, reducing agents, strong acids, empty wood pallets.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

Exposure Guidelines		
Occupational exposure	limits	
OSHA	PEL	Not Established
	STEL/ceiling	Not Established
ACGIH (20	012 TLVs [®] and BEIs [®])	
	TWA	Not Established
	STEL/ceiling	Not Established
Engineering controls		
Use exhaust ventilation	to keep airborne conce	entrations below exposure limits.
Personal Protective Equ	lipment	
Eye/face protection		Chemical goggles, recommended.
Skin Protection		Nitrile rubber gloves, recommended.

Respiratory Protection

Wear respiratory protection, where airborne concentrations are expected to exceed exposure limits

General Hygiene Considerations

Avoid contact with eyes and skin. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemica	al properties
Appearance	Solid, crystalline powder
Colour	Pale Blue
Odour	Odourless
Odour Threshold	No applicable
pH value	No data available
Melting point / freezing range	No data available
Boiling temperature / boiling range	Not applicable
Flash point	Not applicable
Vapourisation rate / Evaporation rate	No data available
Flammable solids	Not flammable
Explosion limits (LEL, UEL)	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative Density	No data available
Solubility	> 100 g/L at 20°C/68°F (water)
Partition coefficient n-octanol /water	Not applicable
Auto Ignition temperature (AIT)	Not applicable
Decomposition temperature	No data available
Viscosity	Not applicable
Explosive properties	Not explosive
Oxidizing properties	Not oxidizer
Other information	
None	

10. STABILITY AND REACTIVITY

Reactivity

No hazardous reaction when handled and stored according to provisions.

Chemical stability

Stable under normal storage and temperature conditions.

Possibility of hazardous reactions

None identified

Conditions to avoid

Keep away from flammable, combustible, strong acids, and reducing materials. Keep away from empty wood pallets.

Incompatible materials

Flammable, combustible, strong acids and reducing substances under specific conditions. These incompatible materials shall not include approved packaging materials, pallets, or other dunnage (NFPA 400/2016, Hazardous Materials Code, item 15.3.5.2.1.1).

Hazardous decomposition products

Thermal decomposition products: Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

11. TOXICOLOGICAL INFORMATION

The following information mostly refers to the major component of the product.

Likely routes of exposure (inhalation, ingestion, skin and eye contact)

Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

PRODUCT NAME RED R

PRODUCT NAME RED

Product Code: Date of issue:

RED RIVER 25-5-20 BERMUDAGRASS

NL.2250520RRS)_114_01.2_US September 2019

Carcinogenicity

International Agency for Research on Cancer (IAR	C) No component of this product present at levels ≥0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
National Toxicology Program (NTP)	No component of this product present at levels ≥0.1% is identified as known or anticipated carcinogen by NTP.
29 CFR part 1910, subpart Z	No component of this product present at levels ≥0.1% is identified as carcinogen or potencial carcinogen by OSHA.
California Proposition 65	No component of this product present at levels ≥0.1% is identified as carcinogen by California Prop.65.
WHO (2003) Nitrate in drinking water	No association between nitrate exposure in humans and the risk of cancer
Assessment / classification: Ba	sed on available data, the classification criteria are not met.

Other Toxicological Information

This product contains trace amounts of naturally-occurring perchlorate and iodate. Like other goitrogenic substances, perchlorate may affect iodine uptake by thyroid under specific conditions.

12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product. **Ecotoxicity**

Aquatic Toxicity

Toxicity estimate for the mixture (summation method)

96-h L(E)C50	>100 mg/L	Fish
24-h E(E)C50	>100 mg/L	Daphnia magna (fresh water flea).
72-h E(E)C50	> 100 mg/L	Algae
Assessment / classification	Based on available	data for the ingredients of the mixture, the classification criteria
	are not met.	

Persistence and degradability

The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

Mobility in soil

The components of this mixture have a low potential for adsorption. Portion not taken up by plants, can leach to groundwater.

Other adverse effects

Excess nitrate leaching may enrich waters leading to eutrophication.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable federal and state laws.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

This product is not listed as dangerous waste in the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

Indication of changes

	0
Version 01.2	(September 2019) DNEL removed (Section 8)
	Incompatible materials information updated (section 10)
	NFPA 704 rule updated (section 15)
Version 01.1	(April 2016) All sections were revised and minor changes were made in section 4, 7, 8, 9, 16.
	Section 3 was modified in compliance with OSHA HazCom 2012.
	DNEL and toxicity values were adjusted referring to the mixture (Section 8, 11,12)
	Condition to avoid and incompatible materials were updated (Section 10)
	Regulatory information was updated (Section 15).
Version 01	(August 2013) New document
