January 2-March 22, 2024

Save up  
to 25%!

## MetaLarv® XRP 200 & 800 pouches

| Purchase | Bonus   |
|----------|---------|
| 5 cases  | 1 case  |
| 16 cases | 4 cases |

**MetaLarv XRP** is a biorational, extended release pouch for pre-hatch and standing water control of mosquito larvae in catch basins and storm drains. It features 4.25% (S)-methoprene and utilizes Valent BioSciences' proprietary Triple Release Technology™.

Save up  
to 25%!

## MetaLarv® S-PT 40 lb bags

| Purchase | Bonus   |
|----------|---------|
| 7 bags   | 1 bag   |
| 12 bags  | 2 bags  |
| 30 bags  | 6 bags  |
| 40 bags  | 9 bags  |
| 80 bags  | 20 bags |

**MetaLarv S-PT** works best when targeting *Aedes* spp. in floodwater habitats and offers up to 42 days of control, using Triple Release Technology™, even in areas that dry down and relood.

Save up  
to 17%!

## VectoPrime® FG 40 lb bags

| Purchase | Bonus   |
|----------|---------|
| 25 bags  | 2 bags  |
| 40 bags  | 5 bags  |
| 80 bags  | 11 bags |
| 160 bags | 24 bags |
| 360 bags | 64 bags |

**VectoPrime FG** offers the widest single-brood application window using BioFuse™ technology with the industry's lowest rates for direct application to water, thus saving significant operational costs while improving application flexibility.

Save up  
to 15%!

## VectoMax® FG 40 lb bags

| Purchase | Bonus   |
|----------|---------|
| 12 bags  | 1 bag   |
| 40 bags  | 4 bags  |
| 80 bags  | 10 bags |
| 160 bags | 22 bags |
| 360 bags | 55 bags |

**VectoMax FG** is an OMRI certified product using BioFuse™ technology to combine *Bacillus thuringiensis israelensis* and *Bacillus sphaericus* into each microparticle. It effectively manages mosquitoes in both clean & polluted water for up to 28 days.

# VBC Early Order Program 2024

January 2-March 22, 2024

Save up  
to 25%!

## VectoMax® WSP 800 pouches

| Purchase | Bonus   |
|----------|---------|
| 5 cases  | 1 case  |
| 16 cases | 4 cases |

**VectoMax WSP** is a dust free, clean to the touch, and easy to apply catch basin product that provides up to 56 days of control. This malleable WSP slips in to tight spaces, while not getting hung up on debris, or enclosed in sediment at the bottom of your catch basins.

Save up  
to 25%!

## VectoLex® WSP 800 pouches

| Purchase | Bonus   |
|----------|---------|
| 5 cases  | 1 case  |
| 16 cases | 4 cases |

**VectoLex WSP** is the industry's leading target-specific, environmentally compatible biorational for up to 28 days of residual control of West Nile Virus vectors. Its ability to be used in clean and polluted environments and its flexible design make it ideal for treating catch basins and other breeding sites.

**VBC Early Order Program Rules:** Savings are calculated as the effective discount, off of list price, including the identical no charge product for the level selected. Some products not available in all states, check with your local rep on product registration details. This is a national promotion offered by ADAPCO, LLC d/b/a Azelis Agricultural & Environmental Solutions and may not be extended beyond March 22, 2024 or combined with other offers. All orders include delivery within the contiguous United States and complimentary product will deliver separately. This program is offered to Public Agencies responsible for Mosquito Control. Some exceptions may apply. Pesticide dealers and manufacturers are not eligible.

VECTOBAC, VECTOLEX, VECTOMAX, VECTOPRIME, METALARV, BIOFUSE, TRIPLE RELEASE TECHNOLOGY, and WALs are trademarks of Valent BioSciences LLC. Valent BioSciences owns registrations for these marks in the United States and elsewhere.
