Wasp-Freeze® Wasp and Hornet Killer

BASF
The Chemical Company

Prescription Treatment® brand **Wasp-Freeze®** Wasp & Hornet Killer produces an instant knockdown and kills insects on contact from 15 feet away. It can be used safely around electrical with breakdown up to 49,300 volts and no arcing at 35,000 volts. **Wasp-Freeze** contains no ozone-depleting substances. The active ingredients, d-trans allethrin and phenothrin, provide rapid knockdown and good residual control in the nest.

Use Sites: Outdoors on a variety of flying insects including bees, wasps, hornets and yellowjackets; also labeled for spiders

Packaging: 12 x 17.5 oz. cans
Active Ingredient: d-trans Allethrin and Phenothrin
Class: Pyrethroid

Mode of Action: Group 3 Sodium Channel Modulators
Signal Word: CAUTION
REI: None
PPE: Chemical-resistant gloves; safety glasses recommended

Prescription Treatment® brand
WASP-FREEZE®
Wasp & Hornet Killer

Formula 1

Operational Benefits

This wasp and hornet formulation provides instant knockdown upon contact. The knockdown is so quick, no stinging pheromone is released, thus reducing the chance of being stung.

▲ *Perfect for safely reaching nests in far-away corners, **Wasp-Freeze** is effective from up to 15 feet away.*
